The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-11, 25, 27-36 have been re-examined in regards to the amended claims.

Claims 1-11, 25, 27-36 remains rejected under 35 U.S.C. 102(e).

Claim 40 is new and is also rejected.

2. This is a FINAL rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1-11, 25, 27-36, and 40 are rejected under 35 U.S.C. 103(A) as being unpatentable over Arent (US 6,018,724).

As per claim 1:

Arent discloses a method for trusting sites in a communication network, comprising:

a) providing a policy being responsive to input credentials [s COL.3, lin s 7-40] for verifying at least two declarations in respect of a site [see COL.4,

Application/Control Number: 09/688,687 Page 3

Art Unit: 2135

lin s 6-13]; at least two of said declarations is associated with at least two

respective symbols; [see COL.19, lines 52-58]

b) a user accessing a site through a communication network; [see COL.2,

lines 50-52]

c) providing through said communication network at least one credential

indicative of at least two declarations about the site; [see Figures 4

and 8]

d) authenticating the site [see COL.3, lines 29-42] and testing said at

least one credential against the policy [see COL.3, lines 55-63 and

COL.5, line 63 thru COL.6, line 6] in order to verify said at least two

declarations [see COL.6, lines 20-63] and displaying in respect of each

verified declaration the corresponding at least two respective symbols.

[see col.12, lines 20-55 and col.18, lines 10-25]

As per claim 2:

Arent discloses a method for trusting sites in a communication network,

comprising:

i) mapping a subject in said at least one credential that corresponds to

said site to roles according to said role policy; [see COL.11, lines 11-22 and

COL.19, lines 52-58]

ii) in the case that said subject is mapped to role that corresponds to

said declaration the latter declarations are verified [s COL.5, lin 63 thru

Application/Control Number: 09/688,687

Art Unit: 2135

COL.6, lin 6] and said symbols are displayed. [s e COL.19, lines 52-58 and COL.22, lines 60-65]

As per claim 3: see COL.19, lines 52-58; discussing each declaration corresponds to a respective symbol.

As per claim 4: see COL.2, lines 50-51; discussing the communication network includes the Internet.

As per claim 5: see COL.4, lines 42-60 and COL.5, lines 36-43; discussing at least one of said symbol is proxy or user configured.

As per claim 6: see COL.3, lines 55-63; discusses the authenticating step includes applying an SSL authenticating protocol.

As per claim 7: see COL.3, lines 15-27; discussing at least two symbols are displayed in a trusted pane.

As per claim 8: see COL.19, lines 52-58 and Figures 4 & 8; discusses displaying in a two pane mode at least one original site page in a first pane from among said two panes and said at least two symbols in a trusted pane from among said trusted pane.

As per claim 9: see COL.4, lines 10-15 and COL.19, lines 52-58; discussing a declaration that corresponds to one of said symbols. [symbols such as Seal of Trust, Code of Trust represents the particular site is authentic and trusted, and VISA card graphic represents the secure payment in the description of the site, payment particular sit. Arent discuss a certifying and displaying the site, payment

instruments, transfer operations, and security pr t c l. Arent discusses symbols and their declarations that can be displayed on a site such as the Disney site is authentic and trusted and displays a VISA logo representing the types of payment option accepted for the Disney site (col.19, lines 52-58). Hence, a symbol declaring the site is violence free is inherently a security protocol which is a measure to supervise and filter the sites having certain contents for children or for employees.]

As per claim 10: see COL.4, lines 10-15 and COL.19, lines 52-58; discussing a declaration that corresponds to one of said symbols. [symbols such as Seal of Trust, Code of Trust represents the particular site is authentic and trusted, and VISA card graphic represents the secure payment method accepted by that particular site. Arent discusses certifying and displaying the site, payment instruments, transfer operations, and security protocol. Arent discusses symbols and their declarations that can be displayed on a site such as the Disney site is authentic and trusted and displays a VISA logo representing the types of payment option accepted for the Disney site. Hence, a symbol declaring the site is violence free is inherently a security protocol which is a measure to supervise and filter the sites having certain contents for children or for employees.]

As per claim 11: see COL.3, lines 37-39; discussing the credential being a certificate or certificate chain.

As p r claim 25:

Arent discloses a system for trusting sites in a communication network, the communication network including a plurality of user nodes inter-linked through at least one proxy node to at least one site server, the system comprising:

the proxy is associated with a policy being responsive to input certificates [see COL.3, lines 7-40] for verifying at least two declarations in respect of a site [see COL.4, lines 6-13]; each of said at least one declaration is associated with at least two respective symbol; [see COL.19, lines 52-58]

a user accessing from a user node, through a proxy node to a server site;

[COL.2, lines 50-51]

the server site providing to said proxy node, through said communication network, at least one credential indicative of at least two declarations about the site; [see COL.4, lines 14-20]

the proxy node authenticating the site [see COL.3, lines 29-42] and testing said at least one credential against the policy [see COL.3, lines 55-63] in order to verify said at least two declarations [see COL.6, lines 20-63] and displaying in respect of each verified declaration the corresponding at least two respective symbols. [see col.12, lines 20-55 and col.18, lines 10-25]

As p r claim 27: see col.3, lines 27; discussing the user node includes a browser.

Application/Control Number: 09/688,687

Art Unit: 2135

As per claim 28: see col.2, lines 50-53; discussing the user node includes a browser.

Page 7

As per claim 29: see col.3, line 19; discussing the user node being a cellular telephone.

As per claim 30: see col.3, line 19; discussing the user node being a cellular telephone.

As per claim 31: see col.3, line 17; discussing the user node being a Personal Digital Assistance device.

As per claim 32: see col.3, line 17; discussing the user node being a Personal Digital Assistance device.

As per claim 33: see col.4, lines 6-15; discussing the proxy node is configured to collect additional credentials from credential repository.

As per claim 34: see col.3, line 4; discussing the server site.

As per claim 35: see col.3, line 1; discussing the proxy node.

As per claim 36: see col.3, line 1; discussing the user node.

As per claim 40: see col.11, lines 11-51; discussing the policy is advanced policy.

Application/Control Number: 09/688,687 Page 8

Response to Arguments

4. Applicant's arguments filed October 4, 2004 have been fully considered but they are not persuasive.

The Examiner finds that Arent discusses certifying and displaying the site, payment instruments, transfer operations, and security protocol. It is inherent that what is being displayed is represented by a symbol that represents a declaration and its credentials. Arent describes a situation where a buyer ("Jo") wants to browse The Disney Store and that the Wells Fargo Java Wallet (VISA) is the only approved/accepted secure payment mechanism provided when the buyer decides to make a purchase at the Disney Store (col. 19, lines 19-23). Arent discusses at least two symbols and at least two declarations that can be displayed on a site such as the Disney site is authentic and trusted and displays a VISA logo representing the types of payment option accepted (trusted) for the Disney site (col. 19, lines 52-58). The Line Saminer is only required to give light of what is claimed and gives the claimed limitations their broadest reasonable interpretation. Therefore, Arent does teach what is claimed for Applicant's amended claim language.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEYNNA T. HA whose telephone number is (571) 272-3851. The examiner can normally be reached on Monday - Thursday (7:00 - 5:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on (571) 272-3859. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
